

# Package ‘spatialDmelxsim’

November 13, 2025

**Title** Spatial allelic expression counts for fly cross embryo

**Version** 1.17.0

**Description** Spatial allelic expression counts from Combs & Fraser (2018), compiled into a SummarizedExperiment object. This package contains data of allelic expression counts of spatial slices of a fly embryo, a *Drosophila melanogaster* x *Drosophila simulans* cross. See the CITATION file for the data source, and the associated script for how the object was constructed from publicly available data.
