

NS261

Network speaker for discreet,
whole-room coverage

Overview

Verkada's NS261 In-Ceiling Network Speaker delivers discreet, whole-room audio coverage from a flush, in-ceiling installation. By eliminating the need for dedicated amplifiers or complex head-end hardware, this plug-and-play device streamlines deployments while delivering exceptional sound quality.

Managing the NS261 is centralized through Verkada Command, where administrators can both stream commercially licensed music via an integration with Soundtrack and deliver instant announcements.

The NS261 offers highly flexible and secure deployment options for ceiling installations. The speaker connects over a single PoE cable and mounts into a 10.5-inch ceiling cutout. To facilitate a secure and professional installation, an included mounting bracket, mounting rails, and safety tether are provided out of the box. Additionally, PoE passthrough lets a single high-power switch port feed two speakers instead of one, reducing home runs, switch ports, and rack space needed for multi-speaker zones.

Because the NS261 is fully enclosed, it can be pendant mounted for open-ceiling environments or tailored architectural requirements.

Key features

Discreet installation

Mounts flush into a standard ceiling cutout for a clean, near-invisible install.

Secure mounting

An included mounting bracket and safety tether secure the speaker to the ceiling structure.

Simplified wiring

Powers a second speaker through the first, reducing home runs and switch ports needed per zone.

Flexible power options

Supports PoE through PoE+++, so it works with a range of switch types while scaling power for higher-output installs.

NS261

Tech specs

Power and network

Power consumption	25W maximum, 5W idle (no audio playing)	Connectivity	Ethernet: 100/1000Mbps RJ45 for network connection.
Power input	IEEE 802.3af/at/bt PoE, PoE+, PoE++ (37VDC – 57VDC), 960mA maximum per pair Standalone: 802.3at (PoE, PoE+): 15W or 30W port budget required With PoE pass-through: 802.3bt Type 3 or Type 4 (PoE++): 60W or 75W port budget required	Power output	802.3af/at PoE, PoE+ (37-57VDC), 30W maximum passthrough

Audio

Driver	6.5" coaxial	Dispersion angle	Coverage angle 108° @ 1m (-6 dB) 500 Hz - 8 kHz
Frequency range	65 - 20,000 Hz (+/- 3dB)	SPL	PoE+: 96dB SPL continuous / 100+dB SPL peak at 1m / 3.3ft PoE: 92dB SPL continuous / 96+dB SPL peak at 1m / 3.3ft

Compliance and availability

Availability	US, CAN, UK, EU, AUS, NZ	Compliance and safety	See verkada.com/compliance
