Description
@zverok (Victor Shepelev) prepared better-looking reference pages at rubyreferences.github.io. I think there's room for improvement of reference pages on www.ruby-lang.org. @hsbt (Hiroshi SHIBATA) Is there a chance to work with? Matz.

@hsbt (Hiroshi SHIBATA) I am up to the task!

There would be a few questions of what's the best way of handling it, I'll prepare the plan/list this week. Basically, there should be made a decision on the process of synchronization of the docs, and updating them from version to version.

Where is the best place to discuss the details: in this ticket? In GitHub repo? Somewhere else?

I discussed this with @ufuk (Ufuk Kayserilioglu). We will work this to forward.
