It works for me. Could you show us the terminal log and the html result (if you can connect to the server)?

#2 - 05/28/2020 09:47 AM - retro (Josef Šimánek)

works for me as well on fresh 2.7.1 installation (compiled locally)

Ruby 2.5 is OK

#6 - 06/03/2020 08:13 AM - mame (Yusuke Endoh)

I suspect that the directory has index.html. Do you run Ruby 2.5 in the same directory as 2.7?

#7 - 06/03/2020 08:21 AM - k0kubun (Takashi Kokubun)

2020-06-03_15-04.png is running it with port 8081, and 2020-06-03_15-00.png is running it with port 8080. Just to be clear, ruby -run -e httpd . -p 8081 with Ruby 2.7 also reproduces the same problem, right?

#8 - 06/05/2020 07:13 AM - sevk (kk kk)

Ruby 2.7 : the directory has index.html

Ruby 2.5 : the directory has no index.html .

how to close this issues
