Target version:		
Description Visual Studio 2013 is finally being EOL'd next April. (https://learn.microsoft.com/en-us/visualstudio/productinfo/vs-servicing#older-versions-of-visual-studio) Let's drop support for it after Ruby 3.3 is released. If we bump the required version to Visual Studio 2015, we'll get better C99 support and be able to rely on some more standards. Personally I'm excited about sprintf being actually implemented. (https://learn.microsoft.com/en-us/cpp/overview/visual-cpp-language-conformance?view=msvc-170#c-standard-library-features-1) As support for the argument, CPython requires VS2017 (https://github.com/python/cpython/blob/main/PCbuild/readme.txt) and gnuilib requires VS2015(https://www.gnu.org/software/gnuilib/manual/html_node/Supported-Platforms.html). Related issues: Follows Ruby - Misc #15347: Require C99

- Assignee set to usa (Usaku NAKAMURA)

#2 - 10/31/2023 04:53 PM - k0kubun (Takashi Kokubun)

- Follows Misc #15347: Require C99 added

#3 - 11/01/2023 03:07 AM - nobu (Nobuyoshi Nakada)

As for snprintf, we avoid system provided implementations not to be affected by locales.

#4 - 11/07/2023 06:36 AM - usa (Usaku NAKAMURA)

It's ok.

Thank you for letting us know.

#5 - 12/26/2023 06:06 AM - hsbt (Hiroshi SHIBATA)
