

Batch Change Policy

Overview

Learners can request a batch change if they face issues such as missed classes, unavailability, or professional commitments. This policy outlines the eligibility, conditions, and applicable fees for requesting a batch change.

1. Batch Changing Criteria

- **Student Request:** Students can request a batch change **any time before their batch start date and up until their course end date.**
- **Course Progress:** If a student from the same course version requests an extension and their progress is less than 25%, a batch change is recommended.
- **After Course End Date:** Any batch change requests made **after the course end date** will not be considered under this policy. Instead, they will fall under the **Course Renewal Policy.**

2. Fee Calculation

- **Within 7 Days of Batch Start Date:**
No fee will be charged if the batch change request is made within seven days of the original batch start date.
- **Between 7 and 30 Days of Batch Start Date:**
A fee of **Rs. 999** will be charged.
- **After 30 Days of Batch Start Date (till course end date):**
 - Determine the number of extra months provided to the student after changing the batch.
 - Calculate the monthly cost for the additional months.
 - Multiply the monthly cost by the number of extra months to find the total charge.

Example Calculation:

- Course: Full Stack Development
- Duration: 8 months
- Fee on Signup Page: Rs. 30,000
- Monthly Cost: Rs. 3,750
- Extra Months: 2 months
- **Total Charge: Rs. 3,750 x 2 = Rs. 7,500**

**Terms and Conditions for PGC apply.*
